

Radoje Laušević

WORK EXPERIENCE

FACULTY OF BIOLOGY, UNIVERSITY OF BELGRADE - BELGRADE, SERBIA

Business or sector Education | **Department:** Institute of Botany and Botanical Garden "Jevremovac" | **Email:** dekanat@bio.bg.ac.rs | **Website:** <https://bio.bg.ac.rs/en/>

UNIVERSITY TEACHING ASSISTANT 30/08/1989 - 25/04/1996

Main duties

- Teaching assistance and student mentoring for courses delivered by the Chair of Algology, Mycology and Lichenology.
- Conducting research in algal ecology and taxonomy, including field and laboratory studies related to freshwater ecosystems

Main achievements

- Obtained PhD in Biology (1995) from the University of Belgrade.
- Awarded a UNESCO research grant for hydrobiological studies of the Vlasina Reservoir (Serbia), contributing scientific knowledge for sustainable reservoir management (1990–1992).
- Managed the 5th Congress of Ecologists, the largest professional event in the Western Balkans at the time, gathering more than 500 participants (1996).
- Recognised by students for high-quality teaching and lecturing skills

Reasons for leaving

- Promotion to Assistant Professor at the Faculty of Biology, University of Belgrade

ASSISTANT PROFESSOR 25/04/1996 - 15/06/2006

Main duties

- University teaching and academic instruction in General Hydrobiology, Hydroecology and Protection of Inland Waters, Botany I and Mycology, and Systematics of Algae, Fungi and Lichens (since December 2005 focused on Hydrobiology and Hydroecology).
- Conducting scientific research in hydrobiology, aquatic ecology and taxonomy, including participation in national research projects and field-based environmental monitoring.
- Contributing to the management and development of academic programmes and research activities within the Institute of Botany and the Botanical Garden "Jevremovac"

Main achievements

- Contributed to the development and modernisation of academic curricula in hydrobiology and environmental sciences (1996–2006).
- Established and led a research team for water quality monitoring, implementing several scientific and environmental research projects.
- Managed the Botanical Garden "Jevremovac", strengthening its role as a scientific, educational and public centre for biodiversity conservation (1996–2000)

Reasons for leaving

- Mutual agreement following appointment to an international leadership position at the Regional Environmental Center for Central and Eastern Europe (REC), following termination of the employment contract

REGIONAL ENVIRONMENTAL CENTER FOR CENTRAL AND EASTERN EUROPE (REC)

- SZENTENDRE, HUNGARY

Business or sector Professional, scientific and technical activities

COUNTRY OFFICE DIRECTOR 01/01/2001 - 30/11/2005

Main duties

- Represented the Regional Environmental Center (REC) in Serbia and Montenegro and managed the operations of the REC Country Office.
- Led project and grant management, including development, implementation and monitoring of national and international environmental programmes.
- Maintained strategic partnerships with government institutions, bilateral donors, international organisations, local authorities, business sector and civil society organisations.
- Supervised and developed the country office team, ensuring effective programme delivery and institutional development.
- Led fundraising and programme development at national and international levels

Main achievements

- Prepared and implemented five Country Office work plans (2001–2005) defining programme priorities, resource allocation and operational targets.
- Expanded the project portfolio tenfold, reaching €2 million annually, significantly strengthening the financial sustainability of the office.
- Increased the country office staff from 4 to 18 members, strengthening internal managerial and expert capacities.
- Established two programme offices, expanding local presence and improving operational flexibility across Serbia and Montenegro.
- Implemented numerous projects focused on local governance, participatory environmental planning and sustainable development, strengthening the role of local communities in environmental management.
- Developed a methodology for Local Environmental Action Planning (LEAP), an innovative participatory tool widely applied in local environmental governance.
- Directed the project “CODE – Assisting Community Development Through Empowering Local Stakeholders”, supporting local sustainable development initiatives

Reasons for leaving

- Promotion to Regional Director for South East Europe

REGIONAL DIRECTOR FOR SOUTH EAST EUROPE 01/07/2004 - 10/10/2008

Main duties

- Provided strategic leadership and programme coordination for REC activities across South East Europe, overseeing environmental policy initiatives and programme implementation in nine countries.
- Supervised and coached REC Country and Field Office Directors, strengthening institutional capacity and ensuring effective delivery of programmes at national level.
- Ensured the financial sustainability and operational performance of REC country offices through programme development, fundraising, and donor engagement.
- Contributed to REC's Senior Management Team, supporting strategic decision-making and regional programme development

Main achievements

- Strengthened and modernised the REC country office network across South East Europe, transforming it into a flexible regional mechanism for environmental cooperation and programme delivery.
- Contributed to the preparation and implementation of five REC annual work plans (2004–2008) and the REC Strategy 2006–2010, defining organisational priorities and long-term programme directions.
- Managed a regional leadership team of nine country office directors, improving coordination, programme performance, and regional collaboration.

- Introduced an indicator-based performance appraisal system for REC country offices, significantly improving monitoring of programme implementation and organisational effectiveness.
- Coordinated development of Local Environmental Action Plans (LEAPs) in more than 50 municipalities across South East Europe, supporting sustainable local development and environmental governance.
- Strengthened environmental civil society organisations across the region through targeted capacity-building programmes and partnerships.
- Directed major regional projects, including:
 - Assisting Community Development through Environmental Planning in Serbia and Montenegro, strengthening local governance for sustainable development.
 - Preparation of Action Plans for Remediation of Environmental Hot Spots, addressing three heavily polluted industrial sites.
 - Crop and Food Biosecurity Programme, improving preparedness against misuse of plant pathogens and strengthening food security

Reasons for leaving

- Promotion to Deputy Executive Director for Environmental Policy

DEPUTY EXECUTIVE DIRECTOR FOR ENVIRONMENTAL POLICY 01/10/2008 - 30/09/2016

Main duties

- Provided strategic leadership and policy direction for REC's Environmental Policy Directorate, guiding programme development and implementation across Central and Eastern Europe and neighbouring regions.
- Managed a multi-disciplinary team of 35+ experts and supervised topic leaders responsible for programme development, project implementation, and quality assurance.
- Oversaw a multi-donor project portfolio averaging €12 million annually, ensuring financial sustainability, fundraising, and strategic partnership development.
- Built and maintained high-level partnerships with governments, international organisations, bilateral donors, and private sector stakeholders, supporting policy dialogue and regional cooperation.
- Actively contributed to the REC Senior Management Team, shaping organisational strategy, operational priorities, and institutional development

Main achievements

- Led the preparation and implementation of nine REC annual work plans (2008–2017), defining organisational priorities, programmes, and resource allocation.
- Contributed to the development of two organisational strategies (2011–2015 and 2016–2020) that set the long-term strategic direction of REC.
- Directed 12 thematic policy and programme areas, including biodiversity, climate change and clean energy, sustainable resource use, environmental governance, and water management.
- Managed a large international programme portfolio (€12M annually) and increased REC's project portfolio from €10M to €15M within five years, strengthening organisational sustainability.
- Developed and implemented an indicator-based performance appraisal system, improving staff performance management and monitoring of programme delivery.
- Developed innovative methodologies for local biodiversity action planning, stakeholder engagement, and participatory environmental governance, widely applied in regional environmental programmes.
- Edited the Local Water Security Action Planning Manual, a practical toolkit supporting local governments in water security planning.
- Initiated and launched the Water Security Initiative, establishing a knowledge platform, expert network, and e-learning framework for capacity building.
- Developed and directed major international projects including:
 - Water SUM – Sustainable Use of Transboundary Water Resources and Water Security Management (supporting water governance in Jordan and Tunisia)
 - LINK – Local Initiatives for a Sustainable Ukraine, strengthening local governance in energy security

Reasons for leaving

- Mutual agreement following organisational restructuring and change of senior management following termination of the Employment contract

20/10/2006 - BELGRADE, SERBIA

ASSOCIATE PROFESSOR (PART TIME) FACULTY FOR APPLIED ECOLOGY, UNIVERSITY OF SINGIDUNUM

Main duties

- Lecturing and academic instruction in the subjects Water Pollution and Protection, Eco-hydrology, and Sustainable Development and Environment.
- Supervision of student research and contribution to the development of applied environmental science education programmes

Main achievements

- Contributed to the development and improvement of environmental science curricula within the Faculty for Applied Ecology.
- Developed and introduced e-learning modules supporting modern teaching methods in environmental studies

Reasons for leaving

- Mutual agreement

Business or sector Education | **Email:** info@futura.edu.rs | **Website:** <https://futura.edu.rs/>

01/07/2019 - BELGRADE, SERBIA

DIRECTOR INNOVATION CENTER OF THE FACULTY OF BIOLOGY

Main duties

- Strategic leadership and management of the Innovation Center, coordinating research, innovation and project development activities in the fields of biodiversity, environmental monitoring and sustainable resource management.
- Development of research and innovation projects, including preparation of national and international project proposals and establishment of partnerships with universities, public institutions and private sector stakeholders.
- Promotion of knowledge transfer and applied research, supporting the development of innovative solutions addressing environmental and sustainability challenges.

Main achievements

- Developed a methodology for biodiversity monitoring applied in environmental assessment and ecosystem management.
- Led preparation of the Ecological Network Impact Assessment study for the design plan of wetland ecosystem revitalisation in three pilot protected areas in Serbia (Zasavica Special Nature Reserve, Jegrička Nature Park and Bara Trskovača protected habitat).

Reasons for leaving

- Mutual agreement

● PROJECTS

CURRENT

Enhancing Cross-Border Blue Growth: Fostering Innovation and Cooperation for Competitive Entrepreneurship – BLUECONNECT Role: **Blue Growth Collaboration Platform Expert**

Programme: Interreg IPA Croatia–Bosnia and Herzegovina–Montenegro 2021–2027

Contracted by: [Institute of Marine Biology](#) , University of Montenegro

Geographical coverage: Croatia, Bosnia and Herzegovina, Montenegro

Provided expert support for the development and long-term sustainability of the [Blue Growth Collaboration Platform \(BGCP\)](#) , strengthening cross-border knowledge exchange, innovation and cooperation among businesses, research institutions and public authorities.

My responsibilities include:

- **Digital platform development:** Preparing Terms of Reference for software development and coordinating with IT experts on platform design, development and launch; incorporating stakeholder feedback to ensure usability and effective communication, knowledge exchange and networking.
- **Regional cluster development:** Working with the Regional Blue Growth Cluster Expert to connect businesses, research centres and other relevant organisations; organising networking events, workshops and collaborative activities that support innovation, entrepreneurship and cluster sustainability.
- **Partnership and governance:** Leading the preparation and negotiation of partnership and cooperation agreements; developing arrangements for continued platform and cluster management, with clear partner roles, responsibilities and decision-making processes.
- **Stakeholder engagement:** Mapping and engaging local and regional stakeholders; facilitating meetings, workshops and consultations to gather input and align platform development with users' needs and evolving priorities.
- **Monitoring and reporting:** Developing monitoring tools, tracking implementation against project objectives and timelines, preparing progress reports, and recommending corrective measures to address challenges and delays.
- **Communication and dissemination:** Developing and implementing a communication plan; coordinating outreach through digital channels, newsletters and events to increase platform visibility, stakeholder participation and opportunities for cooperation across the blue economy.

16/09/2023 - 16/09/2025

Allocated Zones for Circular Aquaculture to Trigger the Transition to an Inclusive Circular Economy - AZA4ICE Role: **Expert in Living Responsible Research and Innovation Ecosystems (LiRRiEs) and Inclusive Circular Economy (ICE)**

Programme: Interreg Euro-MED Programme 2021–2027

Contracted by: [Chamber of Commerce of Montenegro](#)

Geographical coverage: Europe (Portugal, Spain, France, Italy, Croatia, Montenegro, Greece, Bulgaria)

The [AZA4ICE](#) project combined spatial planning, stakeholder participation and circular business models to advance sustainable aquaculture in coastal and inland waters, including the Šasko Lake pilot area.

My responsibilities included:

- **Stakeholder mapping and engagement:** Mapping quintuple-helix stakeholders representing education, business, environmental interests, civil society/media and public authorities; analysing challenges and opportunities for circular aquaculture.
- **LiRRIE development and facilitation:** Supporting the development of a shared vision and establishment of the LiRRIE Forum; organising and moderating participatory events to inform the co-creation of Allocated Zones for Circular Aquaculture (C-AZA).
- **Circular economy assessment:** Collecting and documenting circular aquaculture practices and business models, identifying business opportunities, and reviewing relevant legal and regulatory frameworks.
- **Action planning:** Supporting the development of Montenegro's action plan for an inclusive and circular aquaculture sector, incorporating stakeholder feedback and alignment with Smart Specialisation Strategies (S3).
- **Institutional cooperation and transfer:** Facilitating stakeholder engagement for Memoranda of Understanding and preparing a transfer plan to support the uptake, adaptation and institutional integration of project results.
- **Awareness and learning:** Providing stakeholder-informed inputs for the AZA4ICE educational board game and comic book.

01/01/2023 - 31/03/2025

Development of Sustainable Energy and Climate Action Plans for Selected Local Self-government Units in the Western Balkans **Role:** Country Expert Team Leader

Commissioned by: [ibf expertise](#) , Brussels, Belgium

Geographical coverage: Serbia

Expert input: 25 working days

Supported the development of Sustainable Energy and Climate Action Plans (SECAPs) for selected local self-government units in the Western Balkans through leadership of the country expert team.

Led the country expert team responsible for supporting SECAP preparation in 4 municipalities in Serbia: Novi Sad, Pirot, Valjevo, and Vranje. Coordinating expert contributions to local sustainable energy and climate action planning. The assignment comprised 25 working days of expert input.

30/08/2024 - 13/01/2025

High Level and Market-Responsive Competences for a Blue and Digitalised "Smart and Skilled South Adriatic" - SKILLS **Role:** Expert in Policy Analysis, Stakeholder Engagement, Communication and Monitoring & Evaluation

Programme: Interreg South Adriatic 2021–2027

Contracted by: [Institute of Marine Biology](#) , University of Montenegro

Geographical coverage: Italy (Puglia and Molise), Albania and Montenegro

Provided expert support within [SKILLS](#) , an EU co-funded project addressing blue economy skills gaps through stronger education, vocational training and labour-market cooperation across the South Adriatic region.

My responsibilities included:

1. **Policy analysis and stakeholder engagement:** Analysing labour-market conditions, policy frameworks and socio-economic factors affecting the South Adriatic blue economy; engaging public authorities, educational institutions, industry representatives and community groups to gather evidence and inform project strategies and decisions.
2. **Innovative vocational education and training:** Supporting the design and implementation of vocational education and training (VET) schemes responding to emerging sectoral needs, including demand-driven voucher schemes for vocational education and on-the-job training; collaborating with educational institutions and industry partners to pilot and refine training approaches.
3. **Communication, monitoring and reporting:** Facilitating communication among project partners, stakeholders and the public; monitoring progress and preparing reports on project activities, outcomes

and challenges; developing and implementing communication strategies to promote project objectives, disseminate achievements and strengthen stakeholder participation.

26/02/2021 - 14/08/2022

Explore Cross-border Aquatic Biodiversity - EXChAngE **Role:** Project Manager

Programme: IPA CBC Croatia-Bosnia and Herzegovina-Montenegro 2014-2020

Grant Agreement: HR-BA-ME419

Contracted by: [Institute of Marine Biology](#) , University of Montenegro

Geographical coverage: Croatia, Bosnia and Herzegovina, Montenegro

Provided project management services within EXChAngE, an EU co-funded initiative focused on exploring cross-border aquatic biodiversity in Croatia, Bosnia and Herzegovina, and Montenegro.

My responsibilities included:

1. **Project management:** Managing project implementation in accordance with the Project Subsidy Contract and Partnership Agreement, ensuring alignment with contractual obligations and agreed implementation arrangements.
2. **Procurement support:** Preparing technical requirements and specifications for procurement documentation and tender dossiers supporting project activities.
3. **Project reporting:** Preparing project reports documenting implementation progress and activities in line with contractual reporting requirements.

24/05/2021 - 30/09/2021

Ecological Network Impact Assessment for Wetland Ecosystem Revitalisation in Three Pilot Areas **Role:** Team Leader

Period: 24/05/2021 – 30/09/2021

Contracted by: [Faculty of Biology, University of Belgrade](#) / Innovation Center of the Faculty of Biology

Geographical coverage: Serbia

Led the ecological network impact assessment supporting wetland ecosystem revitalisation in three protected areas in Serbia: Zasavica Special Nature Reserve, Jegrička Nature Park and Bara Trskovača Protected Habitat.

My responsibilities included:

1. **Assessment coordination:** Leading the expert team in conducting ecological network impact assessments for the proposed wetland revitalisation activities across the three pilot areas.
2. **Study preparation:** Coordinating and contributing to the preparation of three site-specific studies: the Main Ecological Network Impact Assessment for Zasavica Special Nature Reserve, Jegrička Nature Park and Bara Trskovača Protected Habitat.

● CERTIFICATIONS

● RECOMENDATIONS

Dr Anders Jägerskog Program Manager Cooperation International Waters in Africa (CIWA), Trust Fund at the World Bank

Radoje is a dedicated professional that approaches the tasks set before him in a structured and professional manner. He is able to work in challenging circumstances and still be able to deliver high quality outputs prepared by himself and his team. Radoje cooperates well with other actors and keeps abreast of developments in the project he was managing. He is also a good Communicator who is able to rally support behind the project often utilising a range of tools and approaches.

Ilija Djekic Full Professor at University of Belgrade - Faculty of Agriculture

I was in touch with Radoje several times during my professional careers. Back in 2002, as Regional Manager for Eastern Europe in American Quality and Environmental Group (AQE Group) I enjoyed communication with him while he was a trainee ISO 14000. He distinguished himself with excellent communication skills, effective public speaking and presentation skills, and pronounced complex problem solving and critical thinking. I was also following his career in the Regional Environmental Center (REC), where he demonstrated advanced management and coordination skills and fully target orientation. I also know him as one of the most knowledgeable person in environmental and sustainable development issues. Radoje could be a valuable asset to a company team striving to build sustainable communities, and support initiatives that reduce company's environmental footprint.

Rob Wolters Executive Nature For Health Foundation

Radoje Lausevic is one of the most experienced people in the field of sustainability, climate change and the environment in the wider Europe but also the world. He combines leadership and vision with practical approaches that work in the realities of everyday life of institutions, governments and wider stakeholders. He is a very experienced and professional manager, capable over overseeing a wide range of issues, including programme development and implementation, and donor-relationships. Radoje is an excellent negotiator, result-driven and with his eyes always on the ball. He has proven wide experience as project director of multimillion projects and can think out-of-the box.

Kristina Salomonsson Methods and Policy Specialist for Strategy Processes at Sida

Radoje is a highly professional person with excellent knowledge in development issues. He demonstrates ability to conduct policy dialogue at government and non-government levels with high sense of objectivity and professional integrity. Radoje has excellent project management skills and works well under pressure and short deadlines. He was continuously delivering high quality outputs on the projects he was managing. He also confirmed himself as very efficient in meeting commitments, observing deadlines and achieving results. He speaks and writes clearly and efficiently. I am highly recommending Radoje.

● NETWORKS AND MEMBERSHIPS

22/02/2022 - CURRENT Kotor, Montenegro

Adriatic Blue Growth Cluster (ABGC) Member of the Adriatic Blue Growth Cluster (ABGC), contributing

expertise in blue economy governance, skills development and stakeholder engagement. Supporting cooperation among academia, public authorities, businesses and civil society to promote innovation, knowledge exchange and sustainable development across the Adriatic region.
